

## ANTIFER

Anti-rust for iron

### DESCRIPTION

ANTIFER is an anti-rust primer based on modified alkyd resins, for ferrous metal surfaces.

The product is endowed with an excellent anti-corrosive power due to the special pigments of which it is composed.

ANTIFER is easy to apply, ensuring a perfect adhesion to the surface, excellent distension and elasticity.

ANTIFER is available in red, grey and black version.

**APPLICATION** Unpainted ferrous metal surfaces: Brush or wash the surface, in order to remove any foil flakes not perfectly anchored and ensure that any rust traces are cleaned up. Degrease the support with DILUENTE NITRO, if necessary. Proceed applying with brush or spray 2 coats of anti-rust ANTIFER, which has to be thinned up with ACQUA RAGIA or DILUENTE SINTETICO in the following percentages: 1st and 2nd coat: approx. 10-15% Pre-painted ferrous metal surfaces: Remove any layers of old and flaky paint or imperfectly anchored parts. Manually remove the rust. Roughen the support for a better anchorage. Dust the surface. Proceed as for the 'Unpainted ferrous metal surfaces' from the third point onwards.

<b>TECHNICAL DATA</b>	
Nature of the bond	Modified alkyd resins
Viscosity	
Drying Time	2- h at touch, 12-24 h complete.
Thinning	Water ragia diluente sintetico 10-15%
Yield	8-10m <sup>2</sup> /Lt
Specific weight	1,714Kg/Lt
Colors	Red, grey, black
Dry aspect	coloured
Wet aspect	
Storing	Max Temp. +30°C, Min T. +5°C
Stability	years (in sealed, unopened original packing)
VOC	µGr/m <sup>3</sup>
TVOC	N/A
PH	N/A
Cleaning	Water ragia
Packing	14LT,2,5LT,0,500LT
<b>CHARACTERISICS</b>	
Characteristics:	Linea antiruggini.
Can be applied on:	.
for:	Interiors ed Exteriors.
Certifications:	
<b>TOOLS AND RELATED PRODUCTS</b>	
Tools:	Brush,Sprayer.
Related products:	DILUENTE NITRO,DILUENTE SINTETICO,ACQUA RAGIA.

#### SAFETY INSTRUCTIONS:

Flammable product.Keep away from heat, sparks and open flames – No smoking. Avoid contact with skin and eyes. Avoid breathing dust/fume/gas/mist/vapours/spray.If swallowed, do NOT induce vomiting: immediately consult the doctor showing the product label or the container. Keep out of reach of children. Avoid release to the environment, as toxic. Do not empty into drains or the aquatic environment.

For further information, please consult the SSR38 safety data sheet.

#### ITEM SPECIFICATION:

Anti-rust for iron.

Applications to be made on already prepared surfaces of anti-rust for iron ANTIFER cod.A001 based on modified alkyd resins, in at least 2 layers, in the quantities determined by the substrate absorption.

Supply and installation of material € ..... per sqm.

#### NOTES

- Please note that due to technical reasons caused by the tinting of the product the indicated Specific Weight of the product may differ from the Package Net Weight.
- In the original, sealed containers and in appropriate temperature conditions . The period of stability is purely indicative, and refers to the minimum stability period of the product if stored ideal conditions according to the instructions provided. If properly stored the products stability period may extend several years.
