

**SCHEMA TECNICA N°119**

ZINCORILUX

Glossy enamel designed for the protection of galvanized sheet.

DESCRIPTION

ZINCORILUX is a special glossy enamel, designed for the protection of galvanized sheet. The product provides very good coverage despite the application in a single coat.

Its formulation based on a styrene-acrylic polymer, gives the product excellent elasticity and perfect resistance to atmospheric agents.

It is advisable to wait for the seasoning, in the case of new galvanized surfaces, in order to ensure the best adherence of the product.

ZINCORILUX can be applied on already prepared zinc, aluminum and light alloys supports.

APPLICATION

Zinc, aluminum and light alloys supports.

- Brush the surface, in order to remove any loose flakes or imperfectly anchored parts and ensure that any oxides traces are cleaned up.
- Degrease the support with DILUENTE NITRO, if necessary.
- Apply 2 coats of ANTIFER Z primer, on residual rust spots.
- After 12-24 hours, proceed applying with brush, 1 coat of ZINCORILUX, which has to be thinned up with DILUENTE SINTETICO in the following percentages: approx 5 -10%.

TECHNICAL DATA	
Nature of the bond	Styrene-acrylic polymer
Viscosity	
Drying Time	2 h at touch, 6-12 h complete.
Thinning	Diluyente sintetico 5-10%
Yield	12-14m ² /Lt
Specific weight	1,200Kg/Lt
Colors	See ZINCORILUX color chart
Dry aspect	Gloss
Wet aspect	
Storing	Max Temp. +30°C, Min T. +5°C
Stability	years (in sealed, unopened original packing)
VOC	µGr/m ³
TVOC	N/A
PH	N/A
Cleaning	Diluyente nitro@diluyente sintetico
Packing	2,5LT,0,750LT

CHARACTERISTICS	
Characteristics:	Linea Smalti.
Can be applied on:	Walls,Wood.
for:	Interiors ed Exteriors.
Certifications:	
TOOLS AND RELATED PRODUCTS	
Tools:	Brush.
Related products:	DILUENTE NITRO,ANTIFER Z,DILUENTE SINTETICO.

SAFETY INSTRUCTIONS:

Harmful and flammable product:

- Keep away from heat, sparks and open flames – No smoking.
- Avoid contact with skin and eyes.
- Avoid breathing dust/fume/gas/mist/vapours/spray.

If swallowed, do NOT induce vomiting: immediately consult the doctor showing the product label or the container. Keep out of reach of children. Avoid release to the environment, as toxic. Do not empty into drains or the aquatic environment. For further information, please consult the SSR119 safety data sheet.

ITEM SPECIFICATION:

Glossy enamel designed used for the protection of galvanized sheet. Applications to be made on already prepared surfaces of glossy enamel ZINCORILUX cod.ZX01 based on styrene-acrylic resin, in a single coat, in quantities determined by the substrate absorption. Supply and installation of material € per sqm.

NOTES

- Please note that due to technical reasons caused by the tinting of the product the indicated Specific Weight of the product may differ from the Package Net Weight.
- In the original, sealed containers and in appropriate temperature conditions . The period of stability is purely indicative, and refers to the minimum stability period of the product if stored ideal conditions according to the instructions provided. If properly stored the products stability period may extend several years.
