

## **AQVA**

### Decorative Metal Finishing

#### **DESCRIPTION**

AQVA is the new decorative paint with a metallic sheen.

Thanks to the many effects you can achieve, AQVA is suitable as a finish for a modern, classic, ethnic and contemporary environments.

Ideal for decoration of columns, frames and all media where you want to finish with a visible metallic sheen.

AQVA becomes fully washable after three weeks from application.

Available in GOLD, SILVER, COPPER, BRONZE, COPPER RED PAINT.

#### **APPLICATION**

- Make sure the surface is completely dry . If the surface is plastered, make sure it had a curing time of at least 28 days , depending on temperature.
- Make sure that the media has been well prepared and is suitable for coating: plaster must be dry, not have any granules , on old walls, make sure that there is no poor quality or powdery paint, remove flaking paint etc. .
- Apply 1 coat of SCIK PURAL ACRIL primer if necessary.
- Apply with a brush or roller one or two coats of DECOR FONDO PRIMER diluted with 5-10 % water.
- Once fully dry, apply AQVA with a brush giving the desired effects. Stroke the brush in an x pattern, half circles, cubes ( see catalog) to achieve the desired effect.
- Apply one coat of the product with a spalter 100 brush evenly with irregular brush strokes covering an area of about 1 square meter . Subsequently with the brush back spread the product applied by drawing the desired effect (x pattern, half circles or cubes). Proceed with this technique over the entire surface .

#### **ROLLER EFFECT**

- Apply one coat of the product with a short haired roller on the surface with irregular and messy movements.

#### **AQVA EFFECT with SPRAY PAINT or ROLLER**

- Thin AQVA with 20-25% of water. Apply the product with a short haired roller or spray on the surface.
- Apply one or two coats .
