## **STILE BAROCCO MARMORINO**

Plaster made of lime and marble dust

### **DESCRIPTION**

MARMORINO Rustic for interior and exterior use recalls the aesthetic effects of the plaster typical of the Italian "Risorgimento".

The composition made of lime, marble dust and natural fillers renews the natural permeability of the surface, making it resistant to mold and bacteria.

It adheres well to the substrate and like all products made of lime allows the wall to breathe.

Particularly appreciated in classical environments. and based on the color used, also in combination with a modern decor. It is also suitable to decorate exterior facades of homes or buildings.
