TERRE D'ITALIA TIGER

Decorative finish based on white flocculi

DESCRIPTION

TERRE D'ITALIA TIGER is a transpiring and ecological decorative paint based on natural oxides and resins in aqueous solution, for internal use. The product which contains white flocculi is characterized by an extreme ease of application and its final antique effect gives a touch of elegance and refinement.

These characteristics make this decorative suitable for every type of environment and style.

TERRE D'ITALIA TIGER is also available in gold flocculi (TERRE D'ITALIA TIGER GOLD) and silver (TERRE D'ITALIA TIGER SILVER).

In addition to TERRE D'ITALIA TIGER is possible to add different additives:

PERLATO ORO, PERLATO ARGENTO, PERLATO ALLUMINIO.

APPLICATION

- The surface to be treated must be dry. Conditions and thickness of the plaster layer affect the drying and hardening time, so make sure it has at least 28 days of curing time, depending on temperature.
- The substrate has to be well prepared and suitable for coating: dry plaster, not any granules from plaster. In case of old walls make sure there is no poor or dusty paint: remove them if necessary as well as flaking paint.
- Apply 1 coat of SCIK PURAL ACRIL insulation if necessary.
- Choose the base (TIGER, TIGER ORO, TIGER ARGENTO) and the color by consulting the color chart.
- Apply one or two coats of white DECOR FONDO o di DECOR FONDO SABBATO. In choosing to apply TERRE D'ITALIA TIGER GOLD o SILVER, please colour DECOR FONDO as indicated on the folder. Use DECOR FONDO thinned at 5-10% with water.
- Apply TERRE D'ITALIA TIGER using the special SPALTER 70 or 100 tool in a uniform manner, reproducing alternating sections, in order to spread the product over the entire surface.
- After 15-20 minutes, using the special SPATOLA TD tool, squeeze the flocculi and finish the product.
- To appreciate the final effect, allow the product to dry completely for 6-12 hours.

TECHNICAL DATA	
Nature of the bond	Acrylic
Viscosity	
Drying Time	2 h at touch, 6-12 h complete.
Thinning	Ready to use
Yield	5-6m ² /Lt
Specific weight	1,03Kg/Lt
Colors	check color chart
Dry aspect	white flocculi in small-medium dimension
Wet aspect	mellow with flocculi
Storing	Max Temp. +30°C, Min T. +5°C
Stability	10-12 Months (in sealed, unopened original packing)
VOC	10µGr/m ³
TVOC	N/A
PH	4-5°C
Cleaning	Water and Soap
Packing	2.5LT
CHARACTERISTICS	
Characteristics:	.
Can be applied on:	Walls,Wood.
for:	Interiors.
Certifications:	
TOOLS AND RELATED PRODUCTS	
Tools:	Spalter 70,Spalter 100,TD Spalter,Woolen Glove.
Related products:	DECOR FONDO.

CAUTION:

- The flocculi in the product are obtained by chemical reaction, for this reason: we can not guarantee the same characteristics from one flocculi to another; stability is also limited in time. It is therefore recommended to use the same lot for the same work to be carried out. If this is not possible, manually mix the batches together (do not use an electromechanical tool).

NOTES

- Please note that due to technical reasons caused by the tinting of the product the indicated Specific Weight of the product may differ from the Package Net Weight.
- In the original, sealed containers and in appropriate temperature conditions . The period of stability is purely indicative, and refers to the minimum stability period of the product if stored ideal conditions according to the instructions provided. If properly stored the products stability period may extend several years.
